Township Map in Zoning book – After some discussion it was moved by Grundy/Mulka to have NEMCOG make new maps showing corrections on the Master Plan maps to reflect the correct zoning. Motion passed.

Denise Cline will review what NEMCOG has on file and inform the Commission as to cost for a Krakow Township wall map.

Drafting Ordinance for Light Industrial – It was decided that there is a need to revise the Standards in the Zoning Ordinance manual for light industrial standards.

Denise Cline will prepare a list of standards that we will be considering. We were informed that addressing the standards in the Zoning Ordinance manual would address the needed change for Light Industrial zoning. No changes need to be made in the Master Plan.

Future Business: Continue to work on Light Industrial zoning.
